ABOUT ME

Motivated Software Engineering Graduate from Hazara University Mansehra (**CGPA: 3.73**, graduated July 2026) with hands-on experience building full-stack, AI-powered applications end to end. Led development of **Echo Notes**, an AI meeting transcription and document generation system, from database design through deployment. Comfortable across the stack, mobile frontend, backend APIs, and applied machine learning integration, with a product-focused, ship-it approach to engineering. Committed to building reliable software
solutions while continuously expanding my skills through hands on projects and professional learning.
